

DECLARATION OF COMPLIANCE

We hereby declare that the product(s) described below

REFERENCE	DESCRIPTION	MATERIAL
BBC-6070-010	PIZZA 600x400x70	HDPE

Comply with the European Union Commission legislation listed below:

- CE 2006/2023
- CE 2004/1935
- CE 2011/10

The articles (FCM) are made, using our described production processes, from the basic raw materials PP, HDPE or other thermoplastic polymers (*), and checked and conform to the European legislation. They are produced in all shapes and sizes in monolayers.

No multiple layers or barrier layers are used.

There is no presence of dual-use additives in the product's raw material.

Under normal use, our products comply with the limits of overall migration (maximum 10 mg/dm²) set out in the CE 2011/10 standard mentioned in Article 18 and Annex V, Chapter 2.

The test conditions for migration are as follows: 10 days at temperature of 40° C, in contact with food simulants A, Ben D2. The ratio between surface area (dm²) and volume of simulant (ml) is 1.

All references meet the total migration of 10 mg/dm² with the food simulants A, Ben D2, and are suitable for :

- All types of food
- Prolonged food contact at room temperature or below
- Contact maximum 2 hours when heated to 70° C.
- Contact maximum 15 minutes when heated up to 100- C.

The specific migration values of the chemical substances mentioned in Annexes I and II of the European Standard CE 2011/10 (and amendments) are lower than the indicated specific migration limits (SML).

The end consumer of products purchased from Plastibac, is responsible for submitting any exceptions specific to the characteristics of their foodstuffs during storage and contact with the article(s), for further investigation.

The declaration is valid from the date below and will be replaced by substantial modification of the manufacturing process or by changes and updates to the current European standards. A new declaration will therefore be drawn up and issued for the products concerned.

This document is valid without signature,

Kuurne, 01/01/2021.
